

February 2003

The members of City Council and the Planning Commission are pleased to present this Comprehensive Plan, adopted on September 10, 2002, to the citizens of Lynchburg. The product of over three years of work by citizens, City officials, City staff, and consultants, this Plan presents a twenty-year vision for Lynchburg. This vision is of an even more vibrant, attractive and well-functioning city.

The goals and objectives, along with the Framework and Future Land Use maps, will be used to guide our decisions on land use matters for the next two decades.

Implementation of this Plan is currently underway: the new Zoning Ordinance is being completed; a Neighborhood Plan for the Tyreeanna/Pleasant Valley area is being prepared; and the revitalization of our City's Downtown continues.

Our many thanks to all those who assisted in the preparation of this new Comprehensive Plan.

Sincerely,

Carl B. Hutcherson, Jr., Mayor
Lynchburg City Council

Wayne Dahlgren, Chair
Lynchburg Planning Commission
